RE: MRB Runway 08-26 CLOSURE SCHEDULE – AIRFIELD LIGHTING/SIGNAGE PROJECT UPDATE

After consultation with our project engineers and contractors – we’ve learned of a need to extend our nightly, mid-week runway closures **through 8/20/2022** to complete the project due to several factors including the limitations and losses of night-work opportunities.

It’s also likely the **ILS-related navigation aids will remain in their deactivated state until no earlier than 08/31/2022**

Note: RNAV arrival/departures procedures will remain operational. We may also seek to cancel these runway closure NOTAMs and restore the ILS system sooner than 08/31 if possible, such as if the project progresses faster than anticipated.

RUNWAY EXPECTED TO REMAIN OPEN

07/10/2022 - 08/20/2022

Sunday	24 hours (24)
Monday	0000 – 1900 hrs. (19)

Reminder: Be sure to check NOTAMs before every flight. Please spread the word to others within our local airport community and regional pilot visitors as we do not have everyone’s email address. Such a project happens once every 30-50 years. We know this will be impactful and inconvenient to airport tenants and visitors alike. **Thank you for your continued understanding and patience as we undertake these important upgrades.** Should you have any questions regarding this notice, please do not hesitate to contact me. I can be reached with a voicemail left at 304-263-2106, ext. 2 or at ndoran@flymrb.com.
