

# FUTURE HANGAR E & RAMP DEVELOPMENT

## ABOUT THE PROJECT

The Eastern West Virginia Regional Airport Authority (EWWRAA) is proposing to construct a new Box Hangar (Hangar "E"), approximately 60' x 60' (3,600 sf) and will provide storage for one aircraft with a wingspan not to exceed 52 feet. The proposed project also includes the construction of a 50' x 60' (3,500 sf) parking ramp immediately adjacent to the proposed hangar with connectivity to Taxiway E, new electrical cabling to the hangar, and removal of an existing 25' x 45' (1,125 sf) concrete pad.

The total area of disturbance resulting from the project is approximately 9,000 sf (0.21 acre). Construction is planned to start in early calendar year 2024 and will require approximately 75 calendar days to complete.

## MORE INFORMATION

For additional information regarding the proposed Taxiway E Extension, please contact Mr. William E. "Bill" Walkup, Airport Operations & Maintenance Manager, at [wwalkup@flymrb.com](mailto:wwalkup@flymrb.com).
